EXPLANATORY NOTES

This compilation contains three sections: 1. personnel, physical facilities and services; 2. resources; 3. income and expenditure. An index showing the county, district or regional municipality and the regional library system is included to aid in locating a specific library. An Ontario summary and comparison with 1977 and a statistical analysis of the regional library systems appears in the December 1979 issue of the Ontario Library Review.

The individual libraries are arranged by county, district and regional municipality within 14 library system regions:

NORTHERN ONTARIO: Northwestern (Kenora, Rainy River, Thunder Bay districts); North Central (Algoma, Manitoulin, Sudbury districts and the Regional Municipality of Sudbury); Northeastern (Cochrane and Timiskaming districts); Algonquin (Nipissing, Parry Sound districts and the District Municipality of Muskoka).

SOUTHERN ONTARIO: Southwestern (Essex, Kent, Lambton counties); Lake Erie (Elgin, Middlesex, Oxford counties); Midwestern (Huron, Perth, Wellington counties and the Regional Municipality of Waterloo); Niagara (Haldimand-Norfolk, Niagara regional municipalities); Georgian Bay (Bruce, Dufferin, Grey, Simcoe counties); South Central (Halton, Hamilton-Wentworth regional municipalities and Brant County); Central Ontario (Durham, Peel, York regional municipalities); Metropolitan Toronto; Lake Ontario (Frontenac, Haliburton, Hastings, Lennox & Addington, Northumberland, Peterborough, Prince Edward, Victoria counties); Eastern Ontario (Lanark, Leeds & Grenville, Prescott & Russell, Renfrew, Stormont, Dundas & Glengarry counties and the Regional Municipality of Ottawa-Carleton).

The figures reported were taken from the Statistics Canada Annual Survey of Public Libraries 1978 form; N/A on the tables means that figures were not available. Population is given as supplied by the Ministry of Intergovernmental Affairs from enumeration reports completed by the Ontario Ministry of Revenue in the fall of 1978. Populations (on Reserve only) for Indian Bands were supplied by the Department of Indian Affairs.

Every effort has been made to ensure accuracy by checking doubtful information with libraries and with auditors' reports, but the validity of this final report depends upon the accuracy of all data submitted.

SELECTED DEFINITIONS

Permanent service point - any building in which is provided in separate quarters of service for users.

Mobile station - a vehicle from which library service is provided directly to the public; does not include vehicles used solely to move library materials from one branch to another.

Mobile station stops - locations at which bookmobiles and other mobile units stop regularly to provide service directly to the public.

Professional librarians - individuals who possess professional qualifications in librarianship and who are employed in positions requiring such qualifications (i.e. ALA, BLS, FLA, MLS, etc.)

Other professionals - individuals who possess professional qualifications in non-library science disciplines (accounting, business administration, computer science, etc.) and who are paid on a scale equivalent to that for professional librarians.

Library technicians/library assistants - individuals who have formal training in librarianship (college or in-library training) but do not possess professional qualifications.

Other support staff - individuals who have no formal training in librarianship; please note that this heading includes the individual in charge of the library where this individual lacks formal training.

Total library personnel - all library staff reported in full-time equivalents; a full-time position is one being continuously occupied at least 30 hours per week throughout the regular working week; all other positions are part-time and are reported as a fraction of a full-time position.

Interlibrary loan - loans to or from libraries which are not an integral part of the same administrative unit; books, periodicals and other materials are counted by the number of volumes or items; copies produced to take the place of original materials are counted by the number of volumes copied.

Reference question - an information contact excluding directional questions in which library staff locate and supply specific information requested by library users; figures reported are for a typical week and are the total for the main library and all service points.

Circulation - total number of books and other items charged-out for use outside the library, whether these items are actually used inside or outside the library; please note this Statistics Canada definition is the reason Ontario's largest public reference library reports zero circulation: items charged out for in-library use are not counted.

Hours open per week - figures reported under the heading 'AVERAGE' are the average number of hours branches are open per week.

Volume - a physical unit of any printed, typewritten, handwritten, mimeographed or processed work contained in one binding or portfolio, hardbound or paperbound.

Volumes held - figures reported include reference material, multilingual volumes, French language volumes and paperbacks.

Reference material - an item, such as an encyclopedia or dictionary, used to obtain specific information quickly; volumes rather than titles are reported (i.e. Encyclopedia Canadiana counts as 10 volumes).

Periodical - a serial appearing or intended to appear indefinitely at regular or stated intervals, generally more frequently than annual, each issue of which contains separate articles, stories or other writings; please note every public library in Ontario receives at least two periodicals: Ontario Library Review and In Review.

Provincial grant - all funds (Legislative, WINTARIO, etc.) received directly from the Province of Ontario.

Local support - total tax income, appropriations and grants from the municipality for which the library was established.

Contract receipts - all funds received from other library boards; includes 'Outreach' and 'Experience' funds received from the regional library system board.

Other revenue - total funds received from all other sources; includes balance brought forward from previous year regardless of the original source of these funds; please note that a negative number reported under this heading results from a deficit brought forward from the previous year that is larger than the amount received from all other sources.

Net current revenue - total of provincial grant, local support, contract receipts and other revenue; does not include proceeds from sale of debentures.

Personnel costs - total amount spent for wages, salaries and fringe benefits for library personnel only; does not include maintenance.

Library materials - total amount expended for books, periodicals, newspapers, audiovisual materials, microforms and other library materials.

Debt services - total amount spent on debenture principal and interest payments.

Other operating - total funds spent on all other items; includes capital expenditure out of current revenue, transfers to reserve funds and salaries of maintenance staff.

Total expenditure adjusted - total of previous four items minus monies received from other library boards and/or regional library board shown under the heading 'CONTRACT RECEIPTS'; includes capita expenditure out of current revenue but not other expenditure charged to the board's capital expenditure budget.

Capital expenditure - total amount charged to the library's capital expenditure budget.
